ORANGE COUNTY AMATEUR RADIO CLUB

VOLUME XXXIX NO. 12 P.O. BOX 3454, TUSTIN, CA 92681 DEC. 1998

Web Site <http://WWW.w6zw.org>

The Prez Sez:

Merry Christmas

Will you be joining us for our Christmas party? I hope so. We plan to meet at Mimi's Restaurant located on 17th Street near (east of) the 55 freeway in Tustin. The day is Saturday, December 12th at 6:30 P.M. for wine, soft drinks or... and conversation. Sit down is at 7 PM.. No reservations are required, we will order off the menu, so please do show up. There will not be a gift exchange, we just want a chance to get together and enjoy the season and the end of another great year.

We had a great turnout out at the breakfast and made some plans for the new year to keep our club strong and growing. One of our concerns is the financial shape of the club. With our rising cost of postage and printing, it is the Club's RF that dominates the cost per member. It is agreed that the club dues be raised to \$20.00 per year and this motion will be brought-up at the next to club meetings for a vote. Currently the dues are only \$15.00 and that is the amount to pay for 1999 dues until at least the beginning of the March meeting. If the vote passes the January and February general meetings, then the change begins after the February meeting.

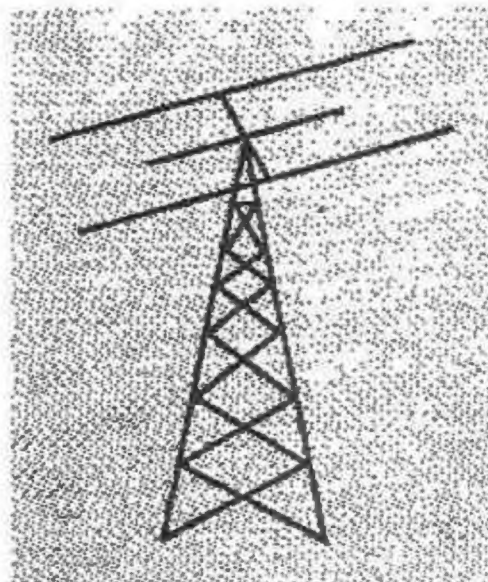

The next topic was the website and its chance at replacing the printed version of the RF for those who desire. Have you logged on our site lately? Please check it out. The webmaster has requested that anyone interested in maintaining the data posted should let that be known. Ken would really like to have some help. Phil will start the ball rolling by posting the club minutes etc. In fact there is a chance that the net news will be the first items to hit our site.

Remember the four towers that we have been trying to sell? Guess what!!! ... they are sold! We had them loaded up on Steve's, KE6NAH, truck and during the Super System luncheon, the last two were displayed and sold.

Welcome to the new officers of 1999, and many thanks to those who helped me in 1998.

73, de kd6bwh, Bob

kd6bwh@aol.com

1998 BOARD OF DIRECTORS

President.....	Bob Buss.....	KD6BWH.....	534-2995

DUES

Regular Members.....\$15.00 Additional Members.....\$7.50 each
 Teenage Members.....\$ 6.00 Optional Club Badge.....\$5.00 each
 Dues for new members are pro-rated quarterly from January 1st each year. Family members must reside at the address of a regular member. Only one RF is sent per household.

An ARRL Affiliated Club

Minutes of the General Meeting

Meeting of November 20th, 1998

The speaker for the evening was Steve Richards, N6SOG. Steve gave a most informative presentation on GPS.

The meeting was called to order at 8:50 PM at the Orange County Red Cross Center. Officers not present were John, WA6RND and Larry, K6VDP. Minutes were approved as published in the RF.

Treasurer's report: Phil N7PA reported \$1004.97 in the treasury and has a budget prepared for 1999. The budget will be discussed at the December board meeting.

Larry K6LDC reported on the "Not-So-DX-pedition and had a video tape to show this eve. The annual Xmas dinner will be at Mimi's Restaurant on Dec. 12th at 6:30 P.M. The membership decided not to have a gift exchange. VKZ suggested adding another Not-So-DX-pedition to the calendar. Those present were favorable. Chris KJ6ZH reviewed preparation for the convention in October of 1999. Preparations for the Wouff Hong ceremony should start in January.

Old Business: A crew of six people will meet with VKZ at Cal Trans yard at 8:45 AM, 11-21-98 to move the towers. The breakfast location will remain at Coco's on Tustin in Orange. Larry, K6LDC will make reservations for another year.

Election of officers results:

Pres. Bud Barkhurst, WA6VPP

Activities Elmer Thomas, WA6PFA

V.P. Chris Breller, KJ6ZH

Publicity Phil Anderson, N7PA

Sec. Corlyn Terando, KE6WTU

Membership Lowell Burnett, KQ6JD

Treas. Ken Konechy, W6HHC

Technical Frank Smith, WA6VKZ

Meeting was adjourned at 2130 hours.

Member at Large Bob Buss, KD6BWH

Respectfully submitted, Jim Winn, KE6UCH,

Member at Large Larry Hoffman, K6LDC

Secretary

Minutes of the Board Meeting

Meeting was called to order at 0840 at Coco's Restaurant in Orange. All board members were present except Bob, KD6XO.

Secretary : No correspondence

Treasurer: Phil, N7PA reported \$1022.87 in the treasury and \$275 has been received from the sale of four towers.

Vice Pres. Larry, K6LDC discussed the Xmas dinner at Mimi's Cafe on December 12. Also the Not-So-Dx-pedition has been rescheduled to the weekend of April 23-25.

Old Business: There was discussion about putting the RF on the Web as cost saving measure. A sign-up sheet was circulated for those who would like to view the RF on the website. All others will receive the RF by mail.

New Business: Motion was made by Ken, W6HHC, to put the net news on the website starting January, 1999 to reduce the RF to four pages. Seconded by Lowell, KQ6JD. Motion passed unanimously. Larry, K6LDC, will publish the RF if Bud, WA6VPP cannot due to computer problems. Art, KE6WOX, made a motion to raise the club dues to \$20 per year to help raise additional funds. After discussion the motion was seconded by Frank, WA6VKZ, and unanimously passed. The raise will take effect in February, 1999 as part of the club by-laws. Renewals before February will be honored at the current rate.

Frank, WA6VKZ, was appointed ARRL Liaison to Fried Hein by President Bob, KD6BWH.

Good of the club: Ken, W6HHC, announced that pictures from the last No-So-DX-pedition are now on the website.

Meeting was adjourned at 0940 hours., Respectfully submitted,

Jim Winn, KE6UCH, Secretary

A FRIENDS ESTATE

4th Not-So-DX-pedition was a HOT-So-DX-pedition

The fourth semi-annual "Not-So-DX-pedition got underway on Friday, October 30, 1998 with most of the participants arriving on the lake bed. El Mirage Dry Lake, the favorite venue of many of the participants, was the location.

Arriving in the early part of the morning was Art, KE6WOX and Larry, K6LDC. The spot was secured and the two began the task of setting-up the antennas and the rigs. With almost a non-discernable breeze and mild, warm weather, this task seemed almost a pleasure.

Up went the all band vertical, secured to the ladder of LDC's motorhome, next came the WOX six meter antenna, secured to the rear view mirror on the motorhome door and then Art, WOX began his time consuming task of putting up and attempting to retune his Hustler all band vertical that he inadvertently screwed-up.

LDC made contacts on 20 meters and 40 meters with US stations and a few Canadians. Later in the day LDC made a contact with Mindanao in the Philippine Islands (a DU8) and later that afternoon with a JA3. About this time Frank,

WA6VKZ and Steve KE6NEH arrived and it was time to set-up the cook trailer, with awning (a bit more difficult to erect than a 70 foot tower with 8 stacked 4 element 80 meter beams) and his station.

The VKZ generator was rolled out and lo-and-behold, it was sporting a shiny new muffler. If you all remember, the original muffler went down about a year ago, was replaced with a large muffler that promptly broke off taking the flange from the engine cylinder with it during the last field day in June. Now repaired, Frank proudly pressed it into service. After a short period of operation, the OPs there noticed that there was a louder noise

coming from said energy source. Inspection verified the suspicion that the new muffler didn't make it either.

While all this was going on, Elmer (Tom) Thomas, WA6PFA showed up with his truck, camper shell, rig and antenna, a new home-brewed 10 meter rotatable dipole made from copper pipe and a few fittings. It certainly looked like a million bucks watts. Then PFA sprang the truth on us, it has a Gamma match and has not yet been tuned. Out came the MFJ analyzer and after numerous different attempts, unfortunately none of them abiding by the principles of logic and physics, we were able to get a satisfactory match. PFA was now in business. PFA made some good DX contacts with his rig.

Now came the real test of engineering skill and daring. Under the direction of Frank, WA6VKZ, we were about to attempt a feat more difficult than Ziegfried and Roy's making an Elephant disappear. We were going to erect a mast, made up of many sections of aluminum tubing (approx. 40 feet long when assembled) and we would put Frank's all-band VHF vertical on top of it.

A valiant attempt was made; however, someone must have read the plans up-side-down, because it gave in the middle like a long piece of wet spaghetti and VKZ was now the proud owner of an eight foot piece of aluminum tubing with a nearly perfect radial bend. Getting late. We'll try again in the morning.

Art, WOX, with the
Vertical

LDC on 15 Meters

Repair Time for PFA

4TH Not-So-DX (cont'd.)

Art, WOX, tried his QRP rig. He also made some good contacts. All of the OPs noted that it was an incredibly low noise level; what a novelty! Night was beginning to fall and the chefs (of course trained at the

finest French culinary arts institutions) made up the evening repast. The dinner wine, served with each course was excellent, but tasted a lot like Coors. We were all ready for chow and Steve and Frank performed admirably. Franks trusty companion, K9DOG, begged for dry kibble, but was forced to eat with the rest of us, regardless of his whining.

The night was fabulous, chilly, but not too cold, with a million stars announcing the coming of a bright moon. A fire pit was dug earlier by LDC and NEH and with a load of wood (remnants of LDC's orange tree and home addition) we had a great fire that was enjoyed by all. After the good meal and a few brewskys, most of the OPs were visited by the Sandman.

Saturday morning was glorious. The sun was shining brightly and there was no hint of wind. The morning started with some east coast contacts on most bands

and the fantastic lack of QRN or QRM. Breakfast was prepared by our own version of Wolfgang Puck. It was delicious as usual. Then came the balance of the challenge; the VKZ "Monster Mast." Sensing disaster for a second time, Larry, LDC, relegated his duties to being outing historian and stood by to video the raising as though it were the Marines and the US flag at Mount Suribachi..

The group assembled and Top Kick VKZ directed the operation that looked like it would repeat the previous folly until Art, WOX, decided to get on top of Frank's trailer to take advantage of the better angle for the center support (guy) ropes. Viola!!!! It worked, the mast was up. Now all that need be done was to take

A great campfire (photog missing)

it down again, put the 16 foot tall antenna on it, and raise it again. Practice makes perfect and it went up without too much trepidation. This was almost as much fun as VKZ's eight sided loop at Joshua Tree.

Time for the acid test; does anyone hear the VHF signals from the antenna above the "Monster Mast?" Ask VKZ and NEH for the logs!

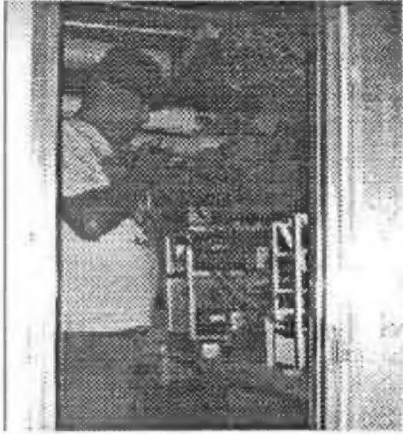

Bud, WA6VPP, showed up just in time for the mast to already be up. Speculation is that he was parked about 400 yards away and used binoculars to know how long to wait before joining our group. Lunch time and operating filled the rest of the day. Field Day without any schedules or pressure, a true pleasure.

The courageous troops and the dreaded cook tent

4TH Not-So-DX (Cont'd)

Time for dinner again, wow.... Chicken and dumplings VKZ style. Franks trusty companion K9DOG attempted to escape as soon as he smelled what was coming, but he was tied-up and staked out so that his punishment was certain. A motorcyclist saw what was happening and threatened us with being charged for animal abuse if we made the dog eat it. We capitulated and gave K9DOG his kibble.

VKZ testing out "Monster-mast and Antenna

coding tape and then the redo. The VKZ unit was packed and the area was left for the coyotes. It was a great outing. Some of the OPs felt it was our best yet.

El Mirage certainly has its advantages.

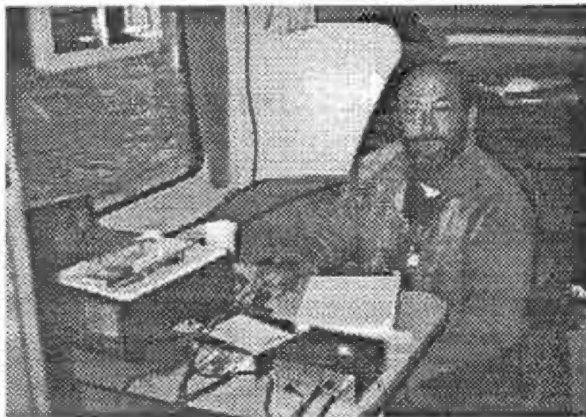

73

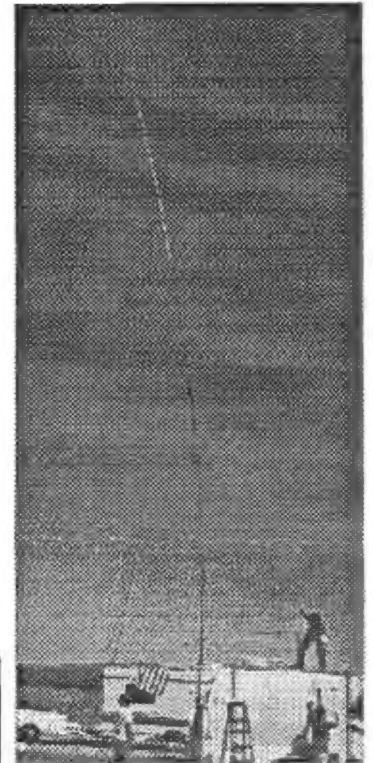

Top left: LDC and PFA adjusting the 10 meter gamma match.

Bottom left: WOX and his trusty QRP.

Bottom Right: We get a visit from the BLM (when we tried to feed him he threatened us with arrest for attempted murder).

"Monster-mast" + antenna with Art, WOX on the trailer
